SPOONER SUBSTITUTE

Republican Members of Committee on Cuban Relations Agree.

DISCRETIONARY POWER IS GIVEN.

If President Is Convinced That Benefits Do Not Inure to Cuban Producer, He Can Declare Regular Rates In Vogue.

Washington, June 18.—The Republican members of the senate committee on Cuban relations finally agreed to the acceptance of the Spooner bill, providing for reciprocity with Cuba, and decided to ask that a conference of Republican senators be called at once to consider its terms.

This conclusion was reached at a meeting of the Republican members of the committee. After the meeting adjourned the text of the bill was made public. It is a substitute for the house bill, and is as follows: "When the republic of Cuba shall have enacted a law or laws establishing preferential rates of customs duties on any or all articles the growth production or manufacture of the United States, imported into Cuba, which preferential rates shall, in the opinion of the president of the United States, constitute a satisfactory equivalent for the reduction hereinafter provided in the rate of customs duties upon articles the growth, production or manufacture of Cuba, imported into the United States, and he shall so declare by proclamation thereupon and thereafter so long as such preferential duties shall be continued by the government of Cuba, not longer, however, than five years, the duties levied, collected and paid upon such articles so exported from Cuba to the United States shall be 80 per cent of the duties specified in the act entitled an 'Act to provide revenue for the government and to encourage the industries of the United States,' approved July 24, 1897, and any amendment thereof; provided, however, that it shall be the duty of the president to thoroughly investigate, through diplomatic and consular representatives of the United States in Cuba, and by such other means as he may deem necessary to employ for the purpose, whether the tariff concessions before provided upon articles the growth, production or manufacture of Cuba substantially inures, so far as the articles of sugar and tobacco are concerned to the benefit of the producers of said articles in Cuba, and if the president shall be satisfied from such investigation that the substantial benefit of said concession upon either of said articles is inuring to the purchasers thereof, individual or corporate in the United States, it shall be his duty to so declare by proclamation to that effect and thereupon and thereafter so long as said conditions shall continue, there shall be levied and collected upon such articles, or upon that one of them, as to which said conditions exist, the rate of duty levied and collected by law upon such article or articles coming into the United States from other foreign countries."

A PECULIAR DISEASE.

Heart Continues to Beat, After a Woman Is Pronounced Dead.

Chicago, June 18.—Practically dead for eight and one-half hours, the heart of Bridget Dempsey, a patient in the county hospital, has continued to beat. All action of the respiratory organs of the woman have ceased, and the physicians in attendance pronounced her dead: The heart action, which apparently had died away, grew stronger a few moments afterward and injections of nitroglycerin and other stimulants and artificial respiration were used, but ineffectually.

Still the pulsations of the heart continued with regularity, while the woman remained to all other indications lifeless.

Dr. H. J. Mustard of the hospital staff pronounced the case one of Landry's paralysis, one of the rarest diseases known to medical science. The disease is primarily paralysis of the respiratory organs, which does not act immediately on the heart.

The dead woman was 21 years old, and entered the institution two weeks ago to be treated for tubercular meningitis.

King Is Better.

London, June 18.—The king passed a good night and his progress towards complete recovery is uninterrupted. The precautionary measures ordered by his physicians are due to the necessity for husbanding his strength, in view of the fatigues of the coronation week. Therefore the king will remain at Windsor castle.

PRESIDENT CLEVELAND

Delivers an Address to Students at St. Thomas of Villanova.

Philadelphia, June 18.—For the first time in the United States the honorary degree of doctor of jurisprudence was conferred at the Augustinian College of St. Thomas of Villanova. The recipient was former President Grover Cleveland, who already had the degree of LL. D. conferred by the Princeton university. The exercises were held in the college, Archbishop Ryan presiding. Mr. and Mrs. Cleveland and the other distinguished guests lunched at the college after the ceremonies.

Following is an abstract of the address of Grover Cleveland at the college at St. Thomas of Villanova: "This incident prominently suggests to my mind the imperious edict of education, which forbids the hindrance or disturbance of its high mission by religious discrimination, social intolerance or any of the barriers that to a greater or less extent separates civilized humanity. The republic of education is based upon identical aims, equal rights in its opportunity and impartiality in the distribution of its rewards and honors. This, it seems to me, is impressively illustrated when the severely Catholic college of St. Thomas of Villanova bestows its highest honorary degree upon one not connected with the management and holding an honorary degree in the severely Protestant Princeton university. It will be a sad day for our nation when the forces of education and the teachers of moral living shall cease to strive in unity to leaven the entire mass of our citizenship, or when their influence in that direction shall be divided and circumscribed by religious and sectarian differences."

The ex-president then addressed the graduates, pointing to some of the duties and responsibilities they were entering upon and concluded as follows: "You may be sure that you will fail to meet these obligations if you are not constantly and solemnly impressed with the conviction that your educational advantages are only valuable as they better fit you to do your duty to your God, to your country and to your fellow man."

Illinois Democrats.

Springfield, Ills., June 18.—The Democratic state convention met in Machinery hall on the state fair grounds. Chairman John M. Hopkins, chairman of the state central committee, called the convention to order, and introduced to the convention the temporary chairman, Lawrence B. Stringer of Lincoln. Mr. Stringer, who was greeted with great applause, discussed the issues. Upon the conclusion of Mr. Stringer's address the reports of the committees on credentials were read and the temporary organization of the convention was made permanent. Millard F. Dwyer, for state treasurer, John L. Plekerling for clerk of the supreme court, and nothing positively settled regarding the minor ones on the ticket to be nominated by the Democratic state convention, is the situation. The platform committee had its troubles during the early part of the morning and the latter part of the night with the result that some changes have been made in the original draft. The most important of these is that the Kansas City platform may be mentioned, but it will not be specifically approved.

Castro May Fail.

Port of Spain, Trinidad, June 18.—Owing to the news of an exodus of a large number of President Castro's supporters from Venezuela, coupled with recent defeats suffered by the government, the revolutionists are hopeful of overthrowing Castro in the ensuing month. Four hundred government troops, who landed at Soro for the purpose of retaking Quira, were completely defeated by General Corcega. The government lost 70 killed and many wounded, besides 150 men taken prisoners. General Materny, who is marching on Caracas, has reached Carinies, en route to Guarico, where reinforcements are awaiting the revolutionary leader. Guarico was recently occupied by a large body of revolutionists, a portion of whom are invading Baraboo district under the command of General Pedro Condo.

Hanna Will See Burton.

Cleveland, June 18.—Senator Hanna left for Washington, and it is stated will hold a conference with Congressman Burton, which, it is thought, will result in the latter remaining on the ticket for re-election to congress. Mr. Hanna stated that a strong effort would be made to re-establish harmony in the local Republican situation. He added that he felt satisfied that Mr. Burton's decision to withdraw from the ticket had been brought about by erroneous and misleading reports.

MAYOR IN THE MESHES

Chief Magistrate of the City of Minneapolis Indicted For Bribery.

DETECTIVE SUDDENLY DISAPPEARS.

Sensation Follows Sensation In the Police Bribery Cases — Startling Statement of the Attorney For Detective Norbeck.

Minneapolis, June 18.—Sensations come thick and fast in the police bribery cases. When it came time to open the trial of Christopher Norbeck, detective, for bribery, W. W. Erwin, his attorney, arose and confessed that he did not know the whereabouts of his client. He had an appointment with Norbeck, but the accused had not kept it. Nor had he called at the attorney's office later, as had been his custom since the trial began.

The disappearance of the accused great excitement, and a bench warrant will be issued for him. Since the conviction of Gardner, special officer, and the commitment of Detective Harvey for perjury, Norbeck has been very despondent, and has threatened suicide. His bail bond for \$5,000 was signed by R. J. Hill and Brando Sodomini. Mrs. Norbeck told a reporter that her husband left home with another man at 8 p. m., and she has not seen him since.

Another sensation developed when it became known that Albert Ames, mayor of Minneapolis, had been indicted by the grand jury for offering a bribe. The charge is that the mayor endeavored to have his secretary, Thomas R. Brown, appointed sheriff by the county commissioners when it became evident that Philip Megard would be removed from the office by the governor for malfeasance. In attempting to carry out his plan he is alleged to have offered to so arrange matters that the \$20,000 annual income of the sheriff's office should be divided equally between Brown and the three county commissioners who were to vote for him, forming a majority of the board. The evidence to this effect was given before the grand jury by County Commissioners M. W. Nash and Ed Sweet.

Dr. Ames has been four times mayor of Minneapolis, having been elected thrice as a Democrat, and again in November, 1900, after having been out of office for some years, as a Republican. He is a veteran of the civil war, in which he served as surgeon, and is a Grand Army man.

Don't Want the Title.

Chicago, June 18.—Rev. John Thompson, pastor of Centennial Methodist church, Rockford, Ills., has declared that he will never use the title of doctor of divinity, which was conferred on him last week by Taylor university. "In my judgment," said the pastor, the degree of doctor of divinity should be reserved for men who have displayed extraordinary scholarly attainment, or have accomplished great things in their work. The question is not one to be settled by a decision as to whether the school is big enough or whether the man is big enough. He should be judged by himself and not by the diplomas, and not the scholarships and degrees he bears."

Interchange Credit System.

Louisville, June 18.—An interchange credit system between Louisville, Nashville, and Memphis has been arranged through the instrumentality of the recent convention of the National Association of Credit Men. The names of all customers of the jobbers in each of the three cities named are placed in a ledger in the office of the Credit Men's association, together with the extent of the purchases made in those cities. By comparison between the ledgers of the three cities it can easily be determined how deeply any given customer of the market is indebted for goods. This plan the Credit Men's association hopes to extend eventually over the whole of the United States.

Nebraska Republicans.

Lincoln, Neb., June 18.—Interest in the Republican state convention centers almost wholly in the head of the ticket. The seven prominent candidates for the governorship, who have had their headquarters established since Saturday, were doing active missionary work among the few delegates on the ground, but so evenly divided is the strength of at least five of them that the best political prophets confessed their inability to even signify the winner.

Port au Prince, Trinidad, June 18.—The overthrow of the Colombia revolution appears to be complete.

ROYALTY AT RAOES.

Although Greatly Improved, King Edward Does Not Go to Ascot.

London, June 18.—The royal procession left Windsor castle for Ascot Heath. Although King Edward was unable to attend the races, Queen Alexandra, the Prince of Wales and princess, the Duke of Cambridge, the Duke and Duchess of Connaught, and the other guests at the castle and members of the court all participated. The procession was the first full state parade of that description since the death of the prince consort, and consisted of eight carriages, each drawn by four horses. The mounted equestrians and gaily-liveried postillions and outriders formed an imposing cavalcade. Leaving the palace quadrangle by the George IV gate, the royal cortege drove down the famous long walk, which was lined by cheering crowds and, crossing the review ground, the procession reached New Mile Gates gates and passed up the course to the royal pavilion.

In spite of the inclemency of the weather, immense crowds assembled about the course and the royal party was everywhere warmly welcomed. The royal enclosure was brilliant with ladies' dresses and the picturesque costumes of Indian princes. While large numbers of special ambassadors, colonial premiers and diplomats, including Henry White, secretary of the United States embassy, and Mrs. White, John R. Carter, second secretary of the embassy, and Miss Carter and Miss Choate, Mesdames Montgomery-Seers and Adair and other Americans were present in the enclosure. United States Ambassador Choate, Mrs. Choate, Whitelaw Reid, the special ambassador of the United States to the coronation, and Mrs. Reid did not go to Ascot. All the big houses in and around Windsor and Ascot contributed their quota to the fashionable throng.

The gold vase of 200 sovereigns, given by the king for 3-year-olds, was won by George Faber's Ice Maiden.

Rockeand (Maher) won the Coventry stakes. The LaFlesche filly (Martin) was second, and Red Lily third.

This cleared the way for the big race of the day, the Ascot stakes (handicap) of 20 sovereigns each, which were won by Scullion, Carabine finishing second, and Rambling Katie ran third. Thirteen horses started.

GOES SKYWARD.

Prices of July Corn Show That Shorts Are Squeezed.

Chicago, June 18.—Excitement ruled in the corn pit on the board of trade. The fear of a corner in July options, which caused a sharp upturn Monday, was augmented at the opening of business by the reluctance of the big holders of July to sell. In consequence shorts, who feared a runaway market, bought everything in sight and bid for more in order to stop their losses. Prices fluctuated widely and wildly, opening at 64½ cents and closing at 67½ cents.

Sheep Men Killed.

Casper, Wyo., June 18.—A gang of unknown men attacked a sheep camp 50 miles west of here and killed Fred Kassahan and fatally wounded Dan Ferris, both employees of the camp. Early Sunday morning Ferris and Kassahan had trouble with Tom Murphy, nephew of a neighboring sheep owner. Murphy was whipped out of camp and promised to return with assistance, and "clean out" the camp. Shortly after midnight Kassahan and Ferris was awakened by shots. As they got up Kassahan was shot dead, and Ferris mortally wounded. The sheriff has gone to the scene of the trouble.

Wanted to Die.

Wheeling, W. Va., June 18.—A man's suit of clothes was found on the steel bridge, indicating a suicide in the Ohio river. In a coat pocket was found a note in which the writer said he had decided to end his life, as no one cared for him, even the girl he loved. There was a letter addressed to W. S. Mahn, 75 West Wheeling street, Washington, Pa., dated Feb. 26, Easton, Pa., and signed "Mabel," accompanied by her vignette, showing the writer to be a beautiful girl.

Irish Cut Coronation Out.

London, June 18.—At a meeting of the Irish members of the house of commons resolutions to the effect that the Irish Nationalists, as a protest against the "misgovernment of their country," resolved to take no part in the present coronation ceremonies, and that the Irish party be summoned to meet in Dublin on the day of King Edward's coronation, to take into consideration of Ireland, were unanimously adopted.

John Johnson, negro, under sentence of death, set fire to his clothes and attempted to hang himself in jail at Ellicott City, Md.

SWINDLER ARRESTED.

Officers Capture a Man Who Turned a Trick For \$50,000 In Cash.

PLOT EMBRACES BOTH CONTINENTS.

Interesting Story of Gigantic Steal Which a Trusted Employee Planned In South America and Executed In Europe.

Chicago, June 18.—United States marshals from Milwaukee arrested Otto Jackket, at Trevor, Wis. The prisoner is wanted for securing \$50,000 from Englebert, Hardt & Company of New York, Berlin and Buenos Ayres. It is alleged his plan was concocted in Buenos Ayres, where he was employed by the firm, and was carried into effect in Hamburg and Paris. Since securing the money he has eluded his pursuers by traveling in the United States and Mexico. Through alleged misrepresentation Jackket is said to have induced his firm to buy drafts aggregating 200,000 marks, drawn on a Hamburg firm, with a view of opening an account in the latter city. These drafts were endorsed by the firm and later, it is alleged, the firm's name was removed by the use of acid, and the fictitious name of H. Newman substituted. A letter of advice was then written to the international bank of Brussels, stating that Newman would be in that city to close a large business deal, and that a large sum of money would be deposited to his credit. This letter was written by Jackket, it is said, but the firm's name was signed to it. Then he went to Brussels, where as H. Newman, he introduced himself, and later secured the money in Paris.

HELD FOR MURDER.

Mutilated Body of a Rich Cattle Owner Buried In a Garden.

Hyattsville, Neb., June 18.—James Gorman and his sister-in-law, Mrs. Thomas C. Gorman, have been arrested, charged with the murder of the latter's husband, Thomas Gorman, who was a wealthy cattle owner, disappeared from his home two weeks ago, and his wife and brother gave it out that he had gone west to seek another location for their herds. A few days later Mrs. Gorman and James began selling the personal property of the ranch. After disposing of as much of it as they could they left with a 6-horse wagon, taking with them Mrs. Gorman's 3-year-old daughter. Neighbors became suspicious and made a search of the premises, finding the remains of Thomas Gorman buried in the garden.

Sheriff Hale started in pursuit of the couple and arrested them near Cody. Gorman was disposed to fight, and was handcuffed with difficulty. The little girl was not with them, and it is thought her body is in Bull Horn river. Much excitement has been caused by the arrests, and the citizens are demanding that the child be produced unharmed at once. The man and woman are in jail at Kasin awaiting a hearing.

Have Raised the Money.

Philadelphia, June 18.—President John Swain of Indiana university has signified his acceptance of the presidency of Swarthmore college, to take effect next September. Dr. Swain made as a condition of his acceptance that Swarthmore raise \$400,000 for the purpose of enlarging the college and increasing its curriculum. The trustees announce that the \$400,000 has been subscribed and the fund will be still further increased.

Quay's Motion.

Washington, June 18.—When the senate convened Mr. Quay (Pa.) gave notice that on Thursday, at the conclusion of the voting on the isthmian canal question he would move to discharge the committee on territories from further consideration of the bill providing for the admission as states of the territories of Oklahoma, Arizona and New Mexico.

Contractor Injured.

New York, June 18.—Contractor Ira A. Shaler, who has been building the Rapid Transit tunnel in Park avenue, was probably fatally injured by a stone which fell into the excavation, striking him on the head. William B. Parsons, chief engineer of the transit commission, was injured by the same stone.

At Louisville Monday a man was sentenced to the penitentiary for eight years for stealing a couple of paint brushes. The mistake the fellow made was in committing larceny instead of murder.

Under the new revenue law the work of the County Assessor will be simplified somewhat, as far as listing mortgages and lien notes is concerned. The new law makes it the duty of County Clerks to furnish County Assessors with records of all mortgages, liens, &c. Heretofore only mortgages and liens that have been reported to the Assessor or his deputies by those holding them have been assessed. Under the new law none can escape. It means much additional revenue to the State. The fellow who wants to shirk his taxes will now have to loan his money on personal security.

CROP CONDITIONS.

Favorable Prospects Reported From the State by the Weather Bureau. Weekly Review.

[For Week Ending June 15th.]
 Very warm weather prevailed during the week, with local showers rather irregularly distributed. The rainfall was generally heaviest in the northern portion of the State. In localities visited by good showers the conditions could not have been more favorable, but in some of the southern and western counties crops suffered severely from drouth. The wheat harvest is progressing well in the western and south-central counties. It will be about a half crop, but of quite good quality.
 Corn is making a splendid growth and looks quite promising.
 Tobacco has been injured in the western and southern sections by drouth and the attacks of grasshoppers to quite a serious extent, and there are very few plants to replace those killed; owing to these conditions, the acreage, which was already considerably short, will be still further reduced.
 Hay cutting is in progress; the crop is generally light except in north-central counties, where it is quite good.
 Oats are heading rather low, and will fall short of an average crop.
 Irish potatoes and gardens are generally doing quite well.
 Farm work is well up.

STANDARD GAUGE ROAD.

Fleming's Little Railway May Be Improved. Trains Could Be Run From Hillsboro to Maysville.

FLEMINGSBURG, Ky., June 16.—The urgent need of Flemingsburg is a standard gauge railroad. The narrow gauge is too small for the business which is now in sight, and which would largely increase if there was a standard gauge. The managers of the road are doing all in their power and are really accomplishing great things with the limited rolling stock at their disposal, but everything must be transferred to the L. and N. at Johnson Junction, and this is both expensive and slow, delaying shipments that ought to go forward promptly.
 There is a large amount of stuff hauled here and to other points in the county that would be shipped here direct if it could come through without transfer, and the interest of the business men of all classes would be greatly promoted if the change could be made.
 Just now the staves from the McMath & Kelly factory, on Fox creek, are pouring into the railroad yards at a lively rate, there being at present over 250,000 in the yards. More than fifteen wagons are hauling them here daily. The yards are kept full, and only for the shipments which are now being made they would have to quit hauling them here for lack of room. This firm now has more than 1,000,000 staves ready for market and timber out that will make several millions more.
 Immense numbers of large white oak logs have been cut throughout the county the past two months, and will be shipped to the eastern markets as fast as transportation can be secured.
 The output of timber for market was never greater in the county than at present, but the work is growing steadily and will be kept up until nearly all the immense white oak trees which abound in Fleming County are felled and shipped to foreign markets.

The infant son of Mr. and Mrs. A. B. Faulkner died at Lexington and was buried at Flemingsburg.

Taylor, at Ingiany, in his departure from Kentucky, convinced all honest men as to the fact of his complicity in the foul assassination of the lamented Governor Goebel. Taylor, at Washington, too, has made a departure, but it is altogether honorable,—in that he is selling eleven pounds Arbuckle's coffee for \$1, twenty pounds granulated sugar for \$1, six Clark's thread for 25c., Heinz vinegar 20c. gallon, three Lenox soap 10c., 1,000 Buffalo matches 5c. and four pounds Arm and Hammer soda 25c.

NEARLY \$600,000,000.

Total Equalized Taxable Value of Property in Kentucky—Close to \$3,000,000,000
 Revenue—Mason and Adjoining Counties.

The total value of property subject to taxation in Kentucky, as equalized by the State Board of Equalization, is \$598,829,633. Of this the State will this year, at 50 cents on the \$100, collect \$2,994,148.16. This valuation is an increase over the work of the County Assessors of \$11,065,555, they having reported to the Auditor a valuation of \$587,763,778, after the deduction of all exemptions. Last year the valuation, as reported by Assessors, was \$579,083,531, showing an increase by them this year of \$8,680,244. The valuation, as equalized by the State Board last year, was \$589,150,820, showing an increase this year over last year of \$9,672,813, and the amount of tax collected last year was \$2,798,494.87, which is \$195,653.29 less than will be collected this year under the increased tax rate.

Of the total amount of taxes to be collected this year, the county of Jefferson will pay nearly one-fourth, and the six counties of Jefferson, Kenton, Fayette, Campbell, Bourbon and Daviess will pay nearly one-half. Jefferson County has an equalized valuation this year of \$130,878,366, and will pay \$654,391.83 in taxes, an increase of \$38,236.09 over last year.

The equalized taxable value of property in Mason and adjoining counties with amount of taxes to be paid the State by each this year is as follows:

Counties.	Equalized Value.	Taxes.
Mason.....	\$9,710,217	\$48,581 09
Bracken.....	3,108,910	15,544 55
Robertson.....	888,554	4,417 77
Fleming.....	4,790,960	23,954 80
Lewis.....	2,280,821	11,404 11

Menifee County shows up the smallest in this respect, the equalized value of her property being \$509,703 and amount of taxes due \$2,514.51.

River News.

The June rise hasn't materialized yet. Gould and Stanley due down this evening. Bonanza up to-night.

A drunken roustabout started at Captain Pennyweight, of the Gould, with a razor while at Augusta a few days ago, and serious trouble was averted by the prompt action of Clerk Crawford covering the negro with a pistol and forcing him off the boat.

Portsmouth Times: "Captain Samuel Pennywit informed a Times man Monday that there was no truth in the report that he intended to quit the Portsmouth-Cincinnati trade. He said the independent packet, Helen M. Gould, was doing splendidly, and he would keep her in this trade as long as he could make both ends meet. He said he did not know how the reports originated, but intimated that they were inspired to injure him and his boat. He said if anything he would have to get an additional boat, or a larger one. It is said that an agent of the White Collar Line made Captain Pennywit a good offer for the Gould at Cincinnati last week."

All members of Y. M. C. A. base ball team are requested to be at park for practice at 3 o'clock this afternoon.

A NEW LAW.

No Fees for Examining Trials Until There is Indictment by the Grand Jury. Act Goes Into Effect To-day.

Auditor Coulter is mailing to all State and county officers a letter calling attention to the law going into effect to-day, which makes it unlawful for any officer holding examining courts, or Sheriffs, Constables, &c., serving warrants and other processes in examining trials to be allowed any claim for any such services until the grand jury has indicted defendant for felony.

Mr. Coulter says this is one of the best laws enacted by the General Assembly at its last session, and will save the State a large amount annually in the criminal judiciary department of the State government, which stands most in need of curtailment of leakage.

Southland Kennels, Flemingsburg, Ky., are advertising a litter of Scotch collie (shepherd) pups at \$10 each. These pups are bred in the purple, being sired by Ohio Hope, an imported dog, and he by Champion Balgroggie Hope, said to be the best collie in the world. Their dam is by champion Alton Monty, and on her dam's side a granddaughter of Rufford Ormonde, for which Pierpont Morgan paid \$5,000.

We are offering watches and diamonds at \$10 to \$15 less than our competitors. Solid silver and cut glass, the largest assortment in the city, at a sacrifice. CLOONEY & PERRINE.

CONGRESSIONAL CONVENTION.

Many Delegates Present From the Different Counties of the District—Work Will Be Completed This Afternoon.

The Democratic convention to nominate Congressman Kehoe's successor convened too late this morning to give the preliminary organization in to-day's issue.

The various counties of the district are represented by good delegations, although there is no contest, whatever, Mr. Kehoe being the unanimous choice of his party for re-election,—an honor he has richly won by his splendid record in the present Congress.

Washington Opera House has been handsomely decorated for the occasion by the good women of the city who desired in this way to manifest their appreciation of Mr. Kehoe's successful efforts in behalf of Maysville.

The convention will complete its work this afternoon.

MISSIONARY MEETING CLOSES.

Women's Foreign Society of Kentucky Conference Meets at Paris Next Year. List of Officers.

The annual meeting of the Women's Foreign Missionary Society of the Kentucky Conference M. E. Church, South, closed last evening with an evangelistic and consecration service, conducted by Miss Tucker at the First M. E. Church, South. The sessions were finely attended throughout, and the zeal and interest manifested by the many consecrated women in attendance was very marked. All were inspired to renewed service. The talks and Bible readings by Miss Tucker were of a high order and resulted in great good. The election of officers resulted as follows:

President—Miss Belle Bennett, Richmond.
First Vice President—Mrs. M. A. Oden, Winchester.
Second Vice President—Mrs. J. W. Lewis, London.

Forsyth, Paris; Danville district, Mrs. Nannie McMorde, Harrodsburg; Maysville district, Mrs. C. W. Durham, Moorefield; Shelbyville district, Mrs. Lena Magill; London district, Mrs. Maria Jackson.

Paris was selected as the next place of meeting.

Coming out of Paris last evening, the L. and N. pay train ran into a crowd of people assembled near the crossing of Hinkston creek and seriously injured a number of them. The citizens were so incensed at the engineer, Polk McKenna, that his arrest was ordered. Chief of Police Donovan received a message to arrest McKenna at this point but the train left on return trip before the telegram was received. The names of the injured parties were not learned.

Prayer meeting at the Christian Church this evening at 7:30 o'clock. The public invited.

Children's Day will be observed by the Washington Presbyterian Sunday school next Sunday.

Mr. J. C. Rains, who was taken ill at Cincinnati some days ago, is better, but is still confined to his bed.

The degree of Doctor of Divinity was conferred by Southern University at Greensboro, Ala., by request of Bishop H. C. Morrison, on President J. L. Weber, of Kentucky Wesleyan College.

The Mt. Sterling Oil and Gas Company brought in their second well in Montgomery, on the Smith farm, near Levee, Monday morning. The sand was struck at 280 feet; a rich flow of black lubricating oil was found. The well is thought to be good for at least fifty barrels a day.

Chocolate, for Instance!

To know how excellent our soda is, suppose you test our chocolate. Most people like chocolate, most can judge quality.

The making of a perfect chocolate syrup is a lot of trouble. Costs considerable, too; a fine flavored, soluble, free from grease chocolate is expensive.

We pay a fancy price for ours and would pay more if we could get better. And we take the trouble to use it rightly. The same regard for quality marks our soda service throughout.

The New Spoon Feed....

Overcomes this objection, and one has only to try it to be convinced. It is an original device, and fully covered by patents, that has lately been perfected by the manufacturers of the Waterman Ideal Fountain Pen. By reference to the cuts you will notice on either side of the feed proper four shallow, spoon-shaped cells. Any overflow of ink, no matter what the cause from which it arises, flows into these pockets, which are contrived with such nicety as to hold the drops with perfect safety until they are carried off by the ordinary action of the pen. CLARENCE MATHEWS, P. M.

A childless home is a cheerless home. The maternal instinct exists in every woman, and when it is ungratified she is deprived of much of the happiness of life. It often happens that childlessness is due to some cause which can be removed, and often is removed by the use of Dr. Pierce's Favorite Prescription. The vigor and vitality which this remedy imparts to the delicate womanly organs, puts them in a condition of normal health, the lack of which is often the sole obstruction to maternity. Every woman should read Dr. Pierce's Common Sense Medical Adviser, a book containing 1008 pages and 700 illustrations. It is sent entirely free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the paper bound volume or 31 stamps for cloth covered. Address Dr. R. V. Pierce, 663 Main Street, Buffalo, N. Y.

A Double Tragedy.

Oklahoma City, O. T., June 18.—W. T. McMichael shot and killed W. E. Johnson, a well known young business man, on the street here, the result of a dispute over a contested land claim. While he was lying on the ground Johnson shot McMichael in the abdomen. Johnson expired within a few minutes. McMichael can not live. The shooting took place in the north end of the town. E. F. Brown, editor of The Times-Journal, and Johnson were standing together on the sidewalk when Michael approached and began firing without warning.
